It has been demonstrated by the failure of McGeoch that no one man can corner all the hogs in this country.

The way the democrats are bringing out their candidates for '84, they seem bent on giving the republicans several laps in the campaign.

The Missouri river is becoming alarmingly high. The tributaries to the Missouri are overflowing, and lives are being lost and much property destroyed.

The signal bureau claims that there are no more tornadoes this year than in former years, but states that they are confined to a more limited territory in the west than usual.

The president has made a fast friend of General Logan. He has appointed his son to a cadetship at West Point. The son is pleased, the father gratified, and the president smiles at the stroke of

n a dolupidated hot air balloon, at Fayette, Missouri, and when 2,000 feet high it collapsed, and he fell into a river with fearful velocity and was instantly killed

A telegram from Milwaukee says that Mexander Mitchell has addressed a letter to the New York Tribune, denying certain published reports to the effect that ne was interested with McGeoch in his ate lard deal. He declares that he never had any [personal interest in gram or provision markets and had always condemned attempts at cornering produce

A law was recently enacted by the llinois legislature by which laborers and ervants are preferred creditors in a case of voluntary bankruptcy, where wages are due that were earned within three months preceding the making of the assignment. This is simple justice for the protection of a class of poor men and romen who have heretofore been almost verlooked by the law.

Professor Daniels, of the chair of chemistry in the State university, felt exhaustd after commencement exercises, and ook what he supposed was a dose of quinine to strongthen him, but it proved o be strychnine. He had one sovere conulsion, but a number of physicians were mmediately summoned who applied the pumps, and the poison was drawn from he system. He is now out of danger.

The Evening Wisconsin says "the Chicago, Milwaukee & St. Paul company's ratio of increase in earnings for May, 1823, over May, 1822, is larger than is shown by any other railway in the whole energy that has been almost completely country. The efforts made by New York operators a few weeks since to discredit the standing of St. Paul in the market have come to grief; they could not withstand the hard fact of the almost unprecedented business prosperity which the company enjoys.

The immense heavy rainfall since th first of May, and the rather cool weather has had a bad effect on corn. Wheat, oats, barley and the grasses, are remarkably promising, the growth being uncommonly fine; but the corn is backward, and unless July and August shall prove hot months and frosts are long-delayed in the fall, the crop will be exceedingly light in this part of the state. At the present time the stand of corn in Rock county is about the same as last year taking one field with another, and not nuch of it has been replanted. The only hope for the corn crop is several weeks of hot weather and late frosts.

Governor Crittenden has some modesty left yet. He has positively declined in advance to accept the memorial gold watch and chain for which a fund is be. ing raised by the bankers of the state. He says he has done no mere than his duty in suppressing outlaws, and is not entitled to a special testimonial over the many other law-officers of the state. The eriminals who have been pardoned by Governor Crittenden should now try their luck in getting him to accept a testimonial from them. He has pardoned scores of them and they should tender their acknowledgments in the shape of a gold medal.

The New York Sun suggests that, as General Sheridan has a salary of about \$13,000 a year, and has considerable property besides, he is not in need of bounty from the public nor charity from his friends, and that, therefore, if he accepts the present of a \$43,-000 house in Washington he will subject dinance, placing in the city treasury over himself perhaps to unpleasant criticism. The Sun is wrong in its suggestion. The people E. L. Stowart, the aeronaut, paid dear- have got beyond criticising public men y for his folly. He made an ascension | for accepting presents. Grant and Sherman have had houses given them-the former three or four of them-and publie sentiment was neutral on the subject. Grant did not need the two hundred and fifty thousand dollar fund raised for him in New York four years ago, any more than Vanderbilt needs a subscription fund, but it was given him all the same, and he accepted it with alacrity, and the public did not criticise the act. General Sheridan will not at all offend the moral sense of the public by accepting the forty-three thousand dollar

A few days ago the family of John Hopkins made complaint regarding the manner in which young men are being educated at the university established and largely endowed by their relative. They say, "the education given is the highest—it is too high. It seems to educate further already well-educated postgraduates of other colleges. With fortyone professors and an income of \$225,030 we should be educating a thousand young men instead of two hundred." This complaint will strike very many as being just and well-timed. There are several important colleges and universities, rich in estates and endowments, that are doing very little, or nothing at all, in the way of educating young men of moderate means and limited capacities. The course of study necessary to reach graduation is so difficult, that hardly one boy in twenty-five or thirty, is able to obtain a diploma. It has been found that out of a freshman class of seventy young men only four or five are able to worry through, and then it is at the expense of a broken down system, a shattered mind, and an exhausted. This system of educating boys is all wrong. It may give the world a few educated scholars, but the poor boys who need physical and mental training, and should receive some practical benefit from the rich endowment funds are ignored. There is room for a mighty reform in this matter.

Mr. D. R. Locke, of the Toledo Blade, more generally known as Petroleum V. Nasby, has recently returned from an extended trip through Europe, and was in Chicago on Wednesday. He gave the Chicage Journal his impressions of which are well worth and remembering our readers. "Rome" said Mr. Locke-"is a wenderful city. One part of it is as progressive is Chicago. It has modern buildings, good streets, modern hotels and large business blocks. They have as good hotels in Rome as you have in Chicago. You see the greatest difference between old Rome and new. Under the old system Rome was about as wretched a city as could be found on the face of the globe. The object of the priests was to have it nonprogressive, so that it mighbe distinct from every other place. They only got gas in Rome about twelve years ago. It is but lately they have got street cars. They had always good water. They got that by the old aqueducts before they got the pope. But their schools and everything under the control of the priests were very non-progressive. S. W. Dorsey Becoming the Great American Letter Writer.

He Lets go Another Philippie at the Heads of His Enemies.

The Ex-Senator Handles the President's United States Vigorously and Artistically.

New York, June 21.—The Sun prints this morning a letter from ex-Senator Dorsey to a friend, H. C. Dickinson, in which he gives what he calls a "connected history of the efforts to "destroy" him. "As a matter of truth," says Mr. Dorsey, "the original fight was wholly political. It was a conflict between what I thought ought to be a wise administration of public affairs, on the one hand, and what MacVeagh and those who alfollowed him to the rear thought would best subserve their own ends and gratify their own ambitions, on the and grathly their own anibitions, on the other. This issue between MacVeagh and myself was joined early. What I had to say I said in response to requests from the president in January and February, 1881. The published correspondence between Gen. Gartield and myself character to respond for the hield and mysolf shows the reasons for the animus of my enemies in his cabinet. You know with what scorn I treated the detestable idiocy of the suggestion that such mea as MacVengh and James should be made cabinet ministers, to represent the Republi-cans of those two great states, Pennsylvania and New York, neither one of whom could be elected magistrate in the smallest baili-wick in his state. They out no more figure in the politics of the nation than the remotest fixed star upon the movement of Saturn. I feared that Grant, Conkling and Arthur and all the great leaders whom I believed to be of the country had confidence, were to be ignored, and that a political fungus of pretension was to take the place of these sturdy oaks of experience and morit. You know with what reluctance I took part in the cam-paign. Nobody knows better than you do what I sacrideed in business affairs when I want I sacrated in basics are accepted the secretaryship of the Republican committee, withdrawing my attention from the enterprises in which we were concerned to devote it to the profitless, and, as it turned, out, worse than thankless task of discharging this trust for the Re-publican party through the most desperate canvass of its history. When the campaign was over I declined the greatest reward that could be offered to any citizen by any exe-cutive. I wanted no office, and would have none; if the president-elect could have stewed down every place within his power to give into one I would not have touched it. I did not obtrade on the president-elect, as you know, any suggestion of mine, but when he asked my advice I gave it to him without resorve, as the published correspondence between us shows. Gen. Garfield decided that he was right and I was wrong, and thus MacVeagh came into power, hat-ing no. Gen. Garfield, in his anniability and kindness of heart, permitted MacVeagh and James to read the correspondence which passed between us, as he afterwards told me, MacVeagh and James had scarcely warmed their official chairs before they began the prosecution which has just come to so igno-minious an end, and which has long been detested by every fair and honest man in the country. Under a system of espionage be-fore unknown to a free people, and unparalleled in any country, the infamy began. Nobody knew better than MacVeagh and James that I had never made a penny out of the postoffice department, and that not a cont had ever been paid to use, or to anyone for me, out of the public treasury. But, with a power that none but those who have felt it can realize, the most miserable creatures that could be caught in the dragnet, snaked across the mouth of the vilest sewer, were seized upon to rake and scrape the country, to secure, if possible, something that might be turned into a charge against me. It did not matter what the charge was -any charge-all the charges. The spy and detective and sneak-the lowest and most wrotched known to humanity-the public treasury was rich enough to employ. Twelve of the most reputable men men of this district were chosen, with the consent of the prosecution, and without the power of the departments to object, to try this case. It would appear impossible to obtain again a jury of such character and intelligence as those who heard this evidence for soven months-nearly all Democrats, some Protestants, many Catholies, and some infidels, most of them born in this District. Upon such

The people conducting the prosecution were so deprayed that they actually called in women to exercise the powers that belong to women to obtain advantages that other means had failed to bring. The public has been made to believe that I have taken from the treasury millions of dollars. That belief has been brought about by the persistent and continuous charges of misled nowspapers. Garfield know it was a lie. Arthur knew it was a lie. MacVeagh know t was a lie. Browster know it was a lie. Bliss know it was a lie. All of them, from the stailed ox feeding at the rich trough of acci-dent to the meanest worm which fed from the refuse swept from behind him, knew it was

To sum up, it may be remarked that this is supposed to be a free government of an Angle-Saxon people, founded upon the eternal principles of equal and exact justice to all men, and yet the history of this trial shows that at the very capital of such a nation, where the government is a tangible fact and a visible agency, it has been possi ble to organize a conspiracy of vengeance un-der the mask of a legal prosegution, that did not stop in its informal career until it had exhausted the arts of bribery on everybody conneeted with its intended victim, from his associates in business to the cook in the kitchen, And yet, it all failed, notwithstanding the raking of every valley, and mining camp, and canon, every mountain and plain in all the vast region in the west, in the attempt to procure something that would gratify the dishonorable ambition of crushed politi-cians. Notwithstanding the active and willing zeel of the worst wretches that could be gathered from every source: notwithstanding the invasion of the sacred privacy of homely family life, to listen through the half-open door of whispered con-fidence—in short, notwithstanding every vilo art that mulignity could devise, and every appliance that venality could suggest, the jury system developed twelve citizens who had the intelligence to discern the truth, the manhood to resist the wiles and the courage to defy the corrupt and desperate power that exhausted itself to debauch the fountains of Justice. In other words, two years of time and more than \$2,000,000 of public money have been spent in an effort to wreak upon me the vengeance of ambitious and miscrable camp-followers. This is a brief epitome of the story that I will tell you bereafter. The claws of vultures have spread their nails and left me without a scratch, and the abhorrent use of the public treasury in this case has made every citizen feel cusafe. The infumous exercise of the powers of executive officers will be remembered as long as the miserable caricature of a government we now have is remembered by any one."

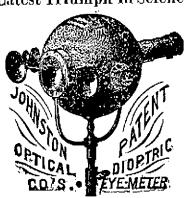

DORSEY VS. LOGAN.

Logan's Friends Not at all Troubled CHICAGO, June 21,-The correspondent of The Chicago Tribune at Washington tele-graphs as follows: The fate of the Repubcan party and the destiny of the country, ac cording to some of Dorsey's friends, scom to depend upon his action or forbearance with respect to a lot of dynamice correspondence which he claims to have received as secretary of the national Republican committee, and to have retained as his personal property, and that correspondence is to be published in chapters, as his purpose or his malice shall be served by Dorsey has two grounds for resentment ngainst Gen. John Logan. Logan ner only declined to attend the famous Dorsey banquet in New York, but did not send a letter of regret. This was his first offence. Logan omitted the mention of the name of Dorsey in the resolution of thanks to the officers of the Republican committee at the meeting of the committee here last spring. That is his second offense, and Dorsey's friends say that he has a mysterious lot of letters of Logan which he will publish. The friends of General Logan smile when they hear that Dorsey claims to have any letters from Logan which can be of any injury to

Brutal Chicago Husband.

CHICAGO, June 21.—Edward Rafter, an exbook-keeper of J. V. Farwell & Co., living at 42 North Peoria street, was charged be fore Justice Walsh yesterday with having attempted to murder his wife on Monday evening. Mrs. Rafter complains that her husband, who has been indulging in a prolonged spree, asked her to give him some money when he came home Monday night, and she, refusing to do so, received an unmerciful pounding at his hands, and, in addition, a fearful stab on the eft side of the face with a large knife. The blow tore a gash in the unfortunate woman's check three and a half inches long, the loss of blood being so severe as to serious ly endanger her life. Dr. Bluthardt, who was called in, pronounced the wound a dangerous one, and notified the police in spite of the entreaties of the wounded lady, who wanted to screen ber husband from justice if possible. Rafter denied having stabled his possible. Ratter denied naving stander his wife, claiming that she out herself accidentally. infants' Bodies for Dog's Meat.-A Ghastly Recital-Some Other Wickedness.

PHILADELPHIA, June 21.—Chief of Police Givin was informed yesterday that if he would detail some men to dig up the celler of the house at No. 2,243 North Fifth street, some startling developments would result. Until recently the house was occupied by Dr. Isaac Hathaway. Detectives Miller and Wolf, armed with shovels, vigorously attacked the cellar, and almost immediately they began to turn up skulls and skeletons. they organ to turn up skulls and skeletons. When they quit work yesterday afternoon, twonty-one grinning skulls of infants lay in a heap before them. The work will be resumed to-day, when further startling developments. opnients are expected. The skeletons and skulls were the result of the work of Dr. Hathaway, the abortionist, who is safe in the state of the safe in the state of the safe in the state of the safe in the safe i

jail in this city.

In March, 1881, Mary Butler, a servant girl, thought she was dying, and confessed to a physician that Dr. Hathaway had caused her illness by criminal malpractice. She had visited him by the advice of Dr. T. B. Miller, a former prominent member of the Phile-delphia Methodist conference and dean of a hope of the conference and dean of a bogus medical college. In April hoth men were taken into custody, and at the inquest held on the bedy of the infant the jury re-turned a verdict in which they found that Anthaway had committed the mulpractice, and that Miller was an accessory before the fast. They were committed to prison, but were subsequently released on bail on write of habons corpus. Then they went away. When Mary Butler recovered she disappeared, and in time both men ventured back, and nua in time toth men ventured back, and Hathaway took possession of an old house on Rising Sun lane. Here he has been living very quietly and secretly. For a long time he has abused his wife and her son by a former marriage. Last week he was arrested, charged with an assault upon Rose Elmer, said to be a daughter of Mrs. Hathaway by her former husband. In default of ball he was locked up. Mrs. Hathaway's son, angry at his stepfather, was heard to remark in court that if he wanted to he could make some pretty startling reve-lations regarding the doctor's cancer at No. ations regarding and doctors cancer at 20, 2248 North 1984 he street. Assistant District Attorney Bregy followed up this clew, and to-day Chief Givin was asked to detail men for an examination of the house. The house for the force of the f is at present occupied by a Gorman family.

The detective began digging under the cellar stairs, and had flung up three or four turns of earth, when a harsh, grating sound told that the spule had encountered something bosides earth. They stooped over and found a little skull. A few inches deeper and rib bones and nine skulls were brought The hole deepened and widened under the vigorous driving of the detectives' sinewy arms until it was about five feet square and four deep, when parts of twenty-one skeletons were unearthed. How many more are be low the surface cannot be surmised. The coroner took charge of the remains.

A terrible story came to the cars of the offi-cers while they were at work, to the effect that Hathaway kept several voracious dogs in the cellar. Sometimes when he was pressed for time he did not go to the trouble of in-terring the bodies of his little victims, but tossed them into the cellar, where they were queckly devoured. Again, corpses would be deposited but a few inches under the soft earth, where they could be uncovered by the hounds. Hathaway has been known for years to the police as an abortionist. He is alleged to have had many realthy austrances. It was a frogramt thing wealthy customers. It was a frequent thing for carriages to drive up in front of the house and leave elegantly-dressed ladies. Until his flight, two years ago, he had long and succonstully piled his trade. His wife, when he was particularly abusive to her, frequently threatened to expose him, but he frightened lance by threatening to kill her and ber son. Dr. Hathaway is still in jail in detank of ball for the assault case. The district attorney holds over him the charge of majoractics on Mary Butler, so that there is no chance of escape until the developments of to-day are fully sifted. Further search will be made in the morning.

THE COURT OF JUDGE LYNCH. NASHVILLE, Tenn., June 21.—A Prospect, Tenn., special to The Banner says: James Trice, son of William Trice, was found hor-rolly mangled in his bed. J. M. Neat, of Pulaski, was in the store with Trice up to I o'clock, at which hour Neal left on the train for his home. Neal had purchased of the proprietor of the store a lot of corn, and the first supposition was that the money paid for the corn was deposited in the store, and to hill Trico and get the money was the object. It now transpires, however, that Neal did not pay Trice the money for the corn, and this accounts in a measure for the manner in which the store was burglarized of dry goods and provisions. The weapon used in killing Trice was an axe, and the horrible condition of the face and head of the young man shows how effectually the bloody work was carried out by the fiends ongaged in this butchery. During the day three negroes, Wesley Warren, Harry Reid and Kyle Walker were arrested on sus-picion, with strong circumstantial evidence against them. In the meantime the coroner from Athens, Ala., who had been informed the nurder arrived on the spot, and, findof the murder, arrived on the spot, and, find-ing the three negroes under arrest, proceeded with the inquisition, but soon after supper, and before all the witnesses had been exam-ined, a squad of men hurried Wesley Warren down the railroad track half a mile and hung him. The two others, Harry Reid and Kyle Walker, were released. AN INDIANAPOLIS SCANDAL.

INDIANAPOLIS, Ind., Juno 21.-Two weeks ago William D. Hardin was married to Maud Lace, and a few nights ago detected her and Robert Goldsmith in a compromising position. He immediately left her, and yesterday began suit for divorce. She appeared in another court about the same time and began proceedings against her husband for desertion, and told a strange story to the effect that Goldsnith had come to her to the effect that Goldsnuth and come to her room when she was alone and unprotected, and compelled her to accede to his wishes under threat of death. While they were together her husband came in, and since then has left town, and the scandal will recieve a definite settlement in the courts. Ohio Democracy.

AT FLOOD HEIGHT.

Further Particulars of the Work of the Waters --- Nine Person Drowned in Kansas.

St. Joseph, Mo., June 21.—Albany, Genby county, says the storm there yesterday afternoon was the most terrific in the history The Grand river, an ordinary of the town. small stream, has swollen till it is now two or three miles wide, and the pastures and crops are destroyed. Hundreds of head of stock, horses, cows, sheep and hogs perished in the storm. The Wabash, St. Louis & Pacific road and the St. Joo & Des Moines road have three miles of their track washed away, and two bridges over the Grand river were caried off. A break occurred last night in the Kansas City, St. Joe & Council Bluffs, be-tween here and Hamburg. The break will stop trains for some hours.

NINE PERSONS DROWNED.

Late news from Sencea, Kan., says nine persons were drowned in the Nomaha river, north of that city. Among the party were the wife of John Grubb and five children, the driver of a wagon, and two young ladies. John Grubb is a raving maniac over the af-fair. The little town of Cincinnati, on the same river, is completely submerged, and a half-dozen buildings washed away. Hun-dreds of head of stock perished. The loss to the village is very great.

SITUATION AT ST LOUIS AND ELSEWHERE. Sr. Louis, June 21,-At all salient points the Missouri river is reported as rapidly rising. It is now up to the high-water mark of In the last twelve hours it has risen six inches. All the lower bottom lands are flooded, and the people are moving out. It now only lacks five feet of being up to the high-water mark of 1844, the highest the river was ever known to be. A great deal of

damage has already been done to crops and the greatest fears are entertained for the final results. From one or two places the reports results. From one or two places the reports are more assuring, but on the whole the ovidence goes to support the opinions advanced by those who have prophesized four feet of water over the ground

floops of the levee warehouses.

For the twenty-four hours ending at 7 a. m. yesterday the river rose seven inches, and it has continued to rise at the same rate ever since. In many places the water is over the sidewalks for several blocks, and a few of the lower stores contain water. Men were working all last night, and have been engaged for | the last three nights on the levees around the lumber district to prevent an overflow. The water is rushing in through the new-made levee along Kennett, from Mallineroft to Dock streets, but an extra force of twentyfive men were put to work last night, and they will be able to prevent an overflow if there should not be an additional rise of from twelve to eighteen inches. The Jupiter furnace in Carondelet will be compelled to close if the water rises two or three inches more. The Missouri car-works are completely flooded, and the damage will be very great. From all over the state comes news of damage to railroads. The Wabash is still shut out from Kansas City, and is sending all through business by way of the Missouri Pacific. The Council Bluffs division is badly broken up. The Grand river is higher than ever, and local rains are still falling, swelling its volume. The through Counall Bluds train that was sent out last night on mass than that says the Humiston & Shenandonh road, which it was intended to take, went to pieces. The Platt river has

submerged the St. Joe branch. The Chicago, Burlington & Quincy road is all right thus far, but a further rise of twelve inches is going to paralyze the whole of the railroads northwest of here while it lasts. A report was circulated here yesterday that the New Madison levee, which protects Venice, opposito here, and broken, but proved unfounded. There is very little change in the situation at Atelison. No freight trains are moving and lassenger trains go only on the Santa

The river has begun failing at Kansas City and apprehension is allayed. At Alton, Ill., the river is rising very slowly, and it is thought the worst is over. The crops in the buttoms opposite the city are

LADIES ON 'CHANGE.

Ladies' Trading Parlors at Chicago-The Fair Sex Cornered on Lard. CHICAGO, June 21 .- "What is the latest

quotation in wheat?" asked a lady, mobile of The Harvard-Columbia Boat Race feature and business-like of aspect, in the newly established ladies' trading parlors in the exchange building.

Mrs. Willson, the manager, who showed her adaptation to clerical duties by wearing a neat pair of sleeve-protectors, turned to a speaking tube, extracted the desired information, and repiled: "\$1.06."
"Do you trade exclusively for ladies?" said

a reporter who had dropped in.
"Yes; chiefly so. We deal both on the open and the regular board. We have been very successful since the 12th inst., when we

received orders for deals from gentlemen. No, I will not give you any names of our lady customers, but many of them have made money since they began operating. This is uo bucket-shop; it is a first-class, responsible commission business. Our deals are principally in corn and wheat." "Are ladies as cool as men in making

deals." "Cooler; but the lard transactions went hard with us. A woman ought to know something about the quality of lard." "Are there many ladies' trading parlors in

"Yes; quite a number." A number of very respectable appearing ladies occupied the parlors, watching the ticker; and others were promenading in the

"DICK" OGLESBY

Fairly in the Field for Republican Nomination for Governor of Illi-Springfield, Il., June 21.—Gen. Dick

Oglesby has been in the city for a couple of days, in consultation with members of the general assembly relative to the campaign of 1884. His friends who accompany him say he is fairly in the field for the Republican nomination for governor, and that if the nomination comes to him with anything like cordiality he will accept it and make a vigcrous canvass of the state. They also declare that no manipulation of the party machine can overcome the popular sontiment in his favor; that he has received great oncouragement from the Cullom men in the senatorial contest, and that he is daily in receipt of pledges of support from all sections of the state. His presence here at this time is intended as the origin of a "boom" in his behalf, to be increased upon the return of members of the legislature to their constituents. It is also said that Ogles by was requested to become a candidate dis-tinctively opposed to the Logan element, but this he declined, with the declaration that i he could not be the candidate of the whole party he would not be a candidate at all. He carnestly pronounced against any factional fight, either for himself or for any one else.

A special treatment for years. He is not a boastful, ignorant pretender, but an educated physician, seeking to do good, by devoting his talent and energies to the treatment of a class of malacies that have been with him a long and patient study. To be able to treat successfully chronic diseases it requires that a physician should be a sound, thorough scholar in the art of science and medicine generally. He should give his entire time to their study, be thorough in his investigations and have a long and varied experience. Dr. brewer claims to work no wenders or to do any more than any well educated physician can do, who devotes his whole time to the study and treatment of chronic diseases exclusively, and has had his many years of experience. For years Dr. Brewer has visited the the places he new visite, and has obtained his reputation by being bonest in his dealings, candid in opinions and reasonable in his charges. TRAINS ARRIVE.

TRAINS ARRIVE. From Beloit, Rockford, Elgin, Chi-oago and east. From Milwaukee, Chicago, and cast.

-We near that one of the best and most enjoyable surprise parties of the season was that on Wednesday afternoon, June 13th, when something over thirty of the friends of Mr. and Mrs. Tyler Stillson made an attack and captured Madam S. by main force—of moral sussion—the central idea being to celebrate her 71st birthday. Mrs. Stillson was made the recipient of an easy rocking chair and Mr. Stillson was also remembered.

-It is hardly to be supposed that so slight a circumstance as the absence of his wife and children in Dakota for a few weeks, would totally unbalance the mind of our level headed M. D., and so we are inclined to accept that story of his attendug a medical convention in Madison one day last week, as an unblushing reality

-Cole's circus, at Whitewater, last Saturday, was well patrovized by Lima folks during the afternoon and evening. We call it as good a show as we ever saw in Whitewater.

-The school in district No. 9 closed last Friday with a picnic in the woods on Martin Gould's farm. A general good time was enjoyed as usual. Some who had the P. N. fever the worst made arrangements to go to lake Koshkonong on Saturday and when the time of starting came it was found that some pretty tall backing out had been done. A cortain gentleman in town will of course be unxious to take a load of passengers at any time hereafter. Those who went to the lake had a good time though, "and

don't you forget it."

—Mr. and Mrs. James Hull went west on Itho Mouroe train last Saturday evening for a visit with relatives in Monti-

cello, Green county. -Mr. James Boyd returned from Dakota last Friday and reports it as the best wheat country he ever saw. He was unable to find any desirable claims for sale at less than from \$1,000 to \$2,000 and no surveyed government land not taken. He saw quite a number of Lima people

in the territory.

—Mrs. Franklin Gould went to Milton Tuesday morning to be with her daughter, Mrs. E. L. Lowe who is sick.

—A freight train, bound west, ran a car off the truck the other evening between seven and eight o'clock, while backing onto the side track at the lower switch. The engineering science of the train men supplemented by Messrs. Regan and Chapman, of the section force, soon brought the straying car into proper position, and the train went on its way only

a few minutes late.

—H. J. Bullock unloaded a carload of lumber at this place last week, and another one on Monday last. We know now why Hi. bought that forty acres. The barn which he is about to build will take up so much space that he must enlarge his dominions in order to have room enough left.

-Mr. Holbrook's people and Miss Carrie Gould, visited in Janesville, at Mr. J. Silabco's, last Sunday.

The hearty thanks of the community generally are due to the gentlemen who went to work with a will on Monday last and finished the sidewalk begun last fall. If they had leveled and properly arranged a part of that first built, they would have placed some of the southerners under

special obligations.

—That special salute in honor of the young ladies and gentleman who were out riding failed to be seen by those for whom it was intended and was only noticed by the vulgar crowd of lookers on.
-W. J. McCord and J. H. Alexander, started for Chicago on the Monroe train Tuesday morning to view the railroad exposition and other sights.

Mrs. Wm. Truman is at present visthing relatives in Rockford and Byson, Illinois. Mr. Truman was in the former place from Saturday till Monday moin-

ing.

Many of our people have been mending their ways during this week-under the direction of Pathmaster Dixon.

Is Fun Retter than Physic?

Fun is excellent; a hearty laugh is known the whole world over to be a health promoter; but fun does not fill the bill when a man needs physic, on the other hand people take too much physic. They would be more healthy, live longer and enjoy life thoroughly if they used Dr. Jones' Red Clover Touic, which cures all blood disorders, indigestion, kidney and liver troubles, removes pim ples, and is a perfect tonic. Can be taken by the most delicate. Only 50 cents per bottle, of Stearns & Baker. Fairfield.

—These are the days of the sheep shear-

er's harvest.

—Mr. Copeland Cutter shipped a carload of hogs, averaging about three hundred pounds in weight, to Obicago last Tuesday.

-First corn weather of the season. -The outfuildings belonging to Mr.

time on business. His niece. Miss Ella Cutter, will return with him.

THE GAZETTE. There was quite a fair attendance at the society meeting last Saturday evening. The programme however was not quite as good as usual owing to the busy imes which caused a lack of preparation on the part of the members an effort will be made to make the next meeting, which occurs June 30th, more interesting.

--Parties from this village visited Tur

tle take on a fishing exentsion last Saturday the result being the usual "fisher-man's luck." The principal catch of the trip was a mammoth dog fish which they vainly endeavored to palm off on the "verdant" as pike.
—One of the members of the society

had a fine buggy mat stolen at the last meeting. This is the first offense of the kind that has occurred since the society was organized. For several sessions back there has been certain gentlemen(?) loafing around outside who seemed ashamed to cuter and show their faces as honest people should. They have been "spotted" and or their next appearance will be given an invitation to make themselves scarce.

-Parties from this vicinity tripped the light fautastic at Mr. James Stewart's last Thursday evening. All who attended reported it to be the boss dance of the season.

Griggs' Glycerine Salve.

The best on earth can truly be said of Griggs' Glycerine Salve, which is sure cure for cuts, bruises, scalds, barns, wounds, and all other sores. Will positively cure piles, tetter and skin cruptions. Satisfaction guaranteed or money refunded. Only 25 cents. For sale by Sterns & Baker.

Emerald Grove.

⊢On Thursday morning last, at 4 a. m. Mrs. Jerome T. Boynton died after a brief On Tuesday previous she gave birth to an infant that lived but for a few hours. Her sudden departure, taken injeconnection with the crushing blow to her husband, and six young children left motherless, casts a deep gloom over the community and many were the expressions of sympathy expressed for the afticted tamily. The funeral services took place on Friday at 2 p. m. in the Congregational church of which she was a believed member. The edifice was densely throughed. Mrs. Boynton, new Miss Catherina A. Scalt, was the youngest Catherine A. Scott, was the youngest child of Stephen and Margaret Scott and was born and reared in the town of Bradford. She was married in 1867 to Mr. If living in July she would Boynton. have been 37 years of age. Her loss will be deeply felt in the church and county. -Rev. F. W. Hullinger, of Milton

preached at Emerald Grove and Johnstown as Sabbath last in exchange with Rev. D. B. Jackson. Presiding Elder Mead occupied the M. E. church and conducted the quarterly meeting services.

We had the pleasure recently of meeting Mr. Clarke, the Milton postmaster and jotter and congratulate the Ga-zette on having so efficient a reporter in

that thriving burgh.

Mr. and Mrs. W. G. Vandenburgh (not Vanderburg) are visiting friends in

Illinois.
U.S. Squire and A. C. Munger re turned from Dakota last week. Thoy have both built stores at Northville, Dakota, and rented their buildings before ledving. Emerald Grove will be their place of residence for the coming year,

-Rev. D. B. Jackson attended the convention at Palmyra, last week. A. E. Joiner, we notice, is building a barn. It is about the size of the old one. and will be attached thereto on the east

ond. John W. Davis is the builder.

—Mr. and Mrs. Wm. Millington returned from England last Thursday evening. They were met in Chicago by their daughters Emma and Lizzie. Mrs. Millington reports herself as well pleased with her trip, and her appearance indi-cates that it has been a beneficial change. In her stay in England she was particularly impressed with the slow methods and heavy implements used there, as compared with the improved machinery and greater dispatch in work of this

ert Tillburn, met with a serious accident last week. In practicing with a colt which was being driven for the first time the animal became frightened and run away dragging McSorley whose feet had become entangled in the lines for some distance and breaking his leg. Doctors Palmer and Scober were in attendance to set the limb and the patient is now doing well under the care of Dr. Seeber. -We were glad to drive over the new Fales bridge last Saturday morning.

A Veteran Soldier.

Mr. G. F. Bowles, of No. 2: Common street Lynn, Mass., says::

"While in the army, at the battle of Spottsylvania, I fell while getting over a rail fence and was hadly injured and left for dead, but after a time I was picked up by comrades; and upon examination it was found that my back was badly hurt and my kidneys seriously injured and I have suffered the most excruciating pain since, and could obtain no relief although treated by several physicians, and I had given up all hope of getting help when I was recommended to use Hunt's Remedy. I purchased several bottles at one of our drug stores in Lynn, and began to use it as directed, and can now attend to business and am free from the pains I formorly bad; and I wish to say to my friends and comrades that Hunt's Remedy will do all that is claimed for it, and worthy of all praise. You can use my testimony when you have occasion to, as I most heartily recommend it to all that have kidney or liver troubles." April 26, 1883.

"You May Use My Name."

I desire to inform you what your valuable medicine has done for me. I was induced to try it by a member of our family, "who had been benefitted by its use." I have suffered terribly from kidney difficulties. At times I have been very bad, having severe pains in my back, with general loss of strength and vitality. My urine was very bad, with a heavy sedi

ment of brick-dust, which was fast leading to gravel. I commenced using Hunt's Remedy with a marked improvement from the start; the pains left, the urine became more natural, and l can truly say one bottle effected a permanent I have recommended it to many persons both

here and in Boston, all of which speak of it with the highest praise.

You are at liberty to use this letter or my name in any manner you may think best, that other sufferess may learn the value of the great est of all remedies. Most truly yours,

JOHN F. FOX.

Dr. Fishblatt

Has discovered the greatest enre in the world for weakness of the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, paleness of sight or griddiness, diseases of the throat, nose or skin, affections of the liver, language ach, or bowels,—those terrible disorders arising from solitary practice more fatal to their victims that the songs of the sirens to the Mariners of Ulysses, blighting their meet radiant hopes or at lieipations, rendering marriage impossible.

YOUNG MEN.

Who have become victims of solitary vice, that dreadful and destructive habit hich annually sweeps to an intimely grave thousands of young men of exalted talent and brilliant intellect who might, if otherwise, cuttaine listening senates with the thouser of their eloquence, or wake to cestney the living lyre, may call full confidence.

—John McSorley who works for Robert Lilburn, met with a second suppose of the dreadful consequences that may ense. Now, who that understands this subject will deny that procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the presumes of healthy offspring, the most serious and destructive symptoms of both mind and body arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, rervous irritability dyspersia, palpitation of the heart, indigestion, constitutional debility, wasting of the frame, cough, consumption and death. WEAKNESS

A Cure Warranted.

Persons ruined in health by funlearied pre-tenders who keep them triffing month after month, taking poisonous and injurious com-pounds, should apply immediately.

Dr. Fishblatt

Graduated at one of the most eminent Colleges of the United States, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep. Egrout nervourness, being alarmed at certain sounds, with frequent blushing attended somewhat with derangement of the mind, were cared immediately.

Particular Notice.

Dr. F. addresses all those who have injured themselves by improper indulgence and solitary habits, which runs both mind and body unlitting them for business, study, society, muriage. These are some of the sad, melanchily effects produced by the early habits of youth, namely: Weakness in the back and limbs, pain in the head, dimness of sight, loss of musical lower; palpitution of the heart, dyspepaia, nervous irritability, derangement of the digestive functions, debility consumption, etc.

-A man named Patrick Burk was be fore the municipal court this afternoon to answer to the charge of larceny. The complainant, Mr. James Hughes, of Harmony, states that Burk appropriated his pocket book, which contained upwards of twenty-one dollars. The case had not been disposed of at 3 o'clock.

-Mr. O. E. Gilmore, of Clinton, and Miss Ida D. Sweet, of Mt. Vernon, Ohio, were married at the home of the groom's parents, Mr. and Mrs. L. M. Gilmore. on Glen street, second ward, yesterday afternoon. The groom is now in the jewelry business at Clinton, and has many friends | Mr. A. W. Baldwin, grand treasurer of in Janesville who will take this occasion to wish him continued prosperity.

-Yesterday Rev. D. F. Davies performed the ceremony which united Mr. Frank R. Pechin, of Huron, D. T., and Miss Ada H. Kent, daughter of Mr. and Mrs. E. J. Kent, as man and wife, the ceremony taking place at the home of the bride's parents. The happy couple were the recipients of numerous presents and many congratulations from personal friends. They left on the noon train for the west and their home in Dakota.

-Marshel Hogan found a drunken stranger in the gutter yesterday afternoon, and took him to the county jail. Upon searching him at the jail, the officers were somewhat surprised at finding about two dozen pairs of spectacles concealed on his person, and the sum of \$47 in currency sawed up in the waist band of his pants. The stranger was "well heeled" for a long spree, and will probably have a little money left after he settles for his debauch in the municipal court.

Cattle and Horses Running of Large. Frequent complaints have been made lately to the authorities of people who ure in the habit of allowing their cattle and horses to lan at will through the public streets of the city. In some parts of the city owners of cows, who here boys to herd during the day, are in the habit of letting the animals out at an early hour in the morning, long before the cowboys are ready to take charge of them. The cows thus turned loose prey upon gardens which are unprotected by fences, break down young trees, and commit other depredations, for which the owners of property so molested make complaint, and ask that the ordinance in relation to cattle, horses, mules, swine, geese, etc., running at large be enforced. One resident of the third ward has been in the habit for some time of using the streets as a pasture for his horses, and neglects to comply with the request of the marshal to keep his animals up. He will be called upon to answer the violation of the ordinance in the municipal court. The ordinance should be strictly enforced and if it is found to be wrong, either

The audience at the Presbyterian church was given a surprise last evening, n the way of witnessing the marriage of two of Huron's society favorites, Charles B. Felt and Miss Ada Bentliff, at the close of the evening service. There were some in the congregation who had been invited and who know all about the wedding, of course, but a majority of those present were ignorant of the affair until after the singing of the closing anthem, when the bride and groom, who were in waiting in the vestibule, walked unattended down the centre assle to the altar, where they were met by the Rev. J. B. Pomercy, who without further ceremony pronounced the ring service of the Presbyterian church.

After the ceremony Mr. and Mrs. Felt were driven in a carriage to their new home in East Huron, where they received a few intimate friends who called to express their congratulations, and where a very pleasant evening was spent. And just now while congrutulations are being tendered to the happy couple from their friends here, the Times begs leave to offer its best wishes and to hope for them the attendance of all good things.—Hur

"What came to Dill'y House," a temperance selection recited by Mrs. J. B. Day, was received with great applause.

The temperance ball was then set in motion by the Grand Worthy Chief Templar, D. H. Pulcifer, of Shawano, followed by Mr. Henry Sanaford, of

the Manitowoo Tribune, and Colonel J. A. Watrous, of the Milwankee Sunday Telegraph. Each of the speakers delivered telling speeches for the cause of temperance, and were attentively listened to and frequently applauded by the audience. At the conclusion of the speech by Colonel Watrous, the meeting in Lappin's music hall closed, and many of the audience congregated in Apollo hall, to participate in the complimentary dance given by Crystal Temple No. 32, of this city. There was a good attendance and all seemed to enjoy the evening. The session of the grand temple in this city has been a success, and as Colonel Watrous remarked in his speech last evening, it was one of the most profitable and encouraging ithe temple had ever held Most of the delegates left the city for their homes on the late evening, and early morning trains.

Le Beau, Dakota.

We have received the first number of the Le Beau Leader, published at Le Beau, Walworth county, D. T., by Wallace C. Brown. The paper is a six-column quarto, and is very neatly printed. Mr. Brown says that when he located in LeBeau, May 27th last, there were five buildings in that place, and since then, ten more have been commenced. Two weekly newspapers are now published there,—the Leader and the Pioneer, both of which speak in glowing terms of the town. The Leader has the following item concerning the new town: "LoBeau is beautifully located on the

west bank of Swan Creek and east bank | of the great Missouri river. The town extends along the broad valley of the creek—as handsome a town site as can be | found in Dakota. It is 100 miles west of Aberdeen and will, ere many months have passed, he connected with the east by three great railroad lines-the Northern Pacific; Chicago, Milwaukee & St. Paul and Chicago & Northwestern. LOTTA'S LOVER.

Some Corrections of the Story Told the Other Day---The "Man for Lotta" Who had One Wife Already. PHILADELPHIA, June 21 -The Times has a story, which comes from New York, purporting to give the reason why Lotta, the actress, has been so sad for the last ten years. It represents her as still pining for her first love, a young man of this city, to whom she was engaged in 1873, and whose parents op-posed the alliance. He is said to have loved her too well to give her up, and, with a child ish confidence in human nature, quite original with herself, and not inherited, she gave him entire charge of her finances. The temptation was too strong for the young man, and one night while she was playing in Niblo's Garden in New York he took \$13,000 of her money and gambled it away. That broke up the match. The disconsolate lover went to drink, died, and was buried in this city. The romancers have it that every time the little actress comes to Philadelphia she goes closely veiled, and spends one day at the grave of him who first won her affections. The trouble about this romance is that it is

not all true. The young man referred to was

Barton Hulme, of this city, who fell in love with Lotta and followed her to Europe. His

family did not object to his acquaintance with her, but they rather encouraged it, so is intimate friends say; nor did he tale \$13,000 of her money for gambling; he only took \$5,000, and all of that amount was re turned to Lotta. She has visited his grave once only since his death, and that was soon after his burial. She was accompanied then by three of her acquaintances. She was told long before the gambling scrape that her lover was addicted to gambling and liquer, but she did not heed these rumors. Whether they were really engaged or not probably no one knews accurately except themselves. Two years ago she was reported to be engaged to A. Waller Gross of this city, but that ment, if there was any, was broken by her-self. She was once much infatuated with Harry Bradley, who was her leading man for several years, but when he closed his last season in her company she seemed to forget him entirely, and his intimate friends say he mourns over her coquetry to this day. Then Clement Bainbridge, another one of her actors, was bewitched by her, and matters began to look as though she might become Mrs. Bainbridge before that season was over. He is a popular gentleman, of exceptionally handsome face and figure, but even his many qualifications were not sufficient to win the consent of Mrs. Crabtree, who is reported to have made a remarkably quiet trip from Troy to Albany just in time to inter rupt what she heard was to be a quiet little ceremony during her absence. Lotta's latest suitor was the very awkward young man who wore uncomfortably high collars, banged his hair, and tried very hard to fill the place of a leading actor in her company during the past season. She met him in London, where he was well known in high social circles as an amateur actor. He was wealthy-owned large estates in Ireland -and prided himself on a high pedigree, and beneath all his dudishness he was rather a good fellow. Lotta liked him, anyhow, it is aid, and when her English leading man disappointed her at the last moment she engaged this young man to come to the United States as a member of her company on trial. He brought the pretty name of Cecil Kaine along with him. She became vio-lently fond of him, it is said, but a few weeks ago they had a quar-rel, and he was removed from the cast in She became New York for a week. They were to have gone to Europe together, but Lotta left on the

City of Berlin two weeks ago. Cecil waited until Wednesday last, when he went to Southampton on the Elbe. Lotta has gone to Dieppe.
Those who know the little actress best say that there was one man to whom she was truly and tenderly attached. He met ber in the earlier days of her stage life, when sho was struggling hard against discouragements to reach the position she has since attained. He taught her quaint bits of stage business. He never tired of helping her to improve difficult scenes. No one sang her duets with more care or better success than he. His brain and his hands were always ready to aid her. His favors won their way deep into her heart. She was seen to be brighter and merrier when he was by her side, and her adieus to him when her engagements at the Arch were over were always tearful. "But," said the old actor, who recited the most of these facts to the reporter to-day: "Poor Bob Craig had a wife. Had he been a single man I believe he would have been her husband. His picture hangs there over the mantel, under that of Edwin Adams, with the bit of crape around it. He was the man for Lotte, and I'll bet she thinks so, too, to

SPRING AND SUMMER USE. We will not attempt to enumerate what we have nor to describe our stock further than to say that it consists of the best obtainable, in every department. We keep everything that is usually found in a first-class Hardware and Stove Store, and a few things besides, and have taken especial pains this spring to have everything up to the standard. In a ticles of different makes, such as

Stoves. Ranges, Household Kaplements and la-bor saving devices. Axes. Tools.

Farm Machinery

We have either arranged to give the purchaser his choice of all the varieties, or we have selected after careful comparison, what we consider to be the best. Everything in our stock has been chosen with particular reference to the want of this community and the surrounding country, and we want every purchaser to feel assured that in buying of us he is getting the greatest obtainable value for his money. Speaking of money brings us to the question of prices, and right here we must be pardoned if we do a little bragging. We do not claim to be smarter than the generality of men in a hone trade or sharper in a dor dicker, but when it courses to buring a stock of Hardware stores we know just weat we are about. We have been enabled by our experience and certain advantages we posses—not the least of which is buying for SPOT CASH, to lay in our new spring stock of seasonable goods at figures which would astonish our competitors if they knew them, and will allow us to offer our patrons a benefit in the way of ROCK BOTTOM PRICES.
